

# Life at Keeyask Camp

Life at Keeyask Camp provides every comfort. Transportation is provided to and from the project site. Each worker has their own spacious room with en-suite washroom and a 32-inch wall-mounted LED television. A 24-hour dining facility provides a range of healthy meals and snacks prepared on-site.

During downtime, workers can:

- **Stay fit at the recreation centre that has the latest exercise equipment, a full-sized indoor track, two basketball courts, racquetball/squash courts, and daily fitness classes.**
- **Relax in the gaming centre complete with pool tables, foosball, ping pong, pinball machines and other arcade and gaming systems.**
- **Watch a movie or sports event at one of two movie theatres that feature surround sound and high-definition projectors.**

"I like what I am doing, I'm happy. I tell the youth, you will like working here, you will get experience. There are lots of young people here, including three of my grandkids. I'll be turning 67 and have lots of family here. It's why I keep working."

**Jude Flett**  
Operator, Amisk

"It's like home – the meals, entertainment. The people I work with are great and everyone tries to help each other and learn together when you start."

**Brian Chapman**  
Rock Truck Operator, BBE

## Building Keeyask builds opportunities

Come work on the Keeyask Generating Station

### How to apply

All craft/trade applicants must use the Keeyask Job Referral Service (JRS) at [gov.mb.ca/jrs/keeyask](http://gov.mb.ca/jrs/keeyask) or call toll-free **1-866-332-5077**.

You can also contact a Job Seeker Manager through an authorized community registration agency, if you are a member of:

- **Fox Lake Cree Nation 204-486-2463**
- **Tataskweyak Cree Nation 204-342-5054**
- **War Lake First Nation 204-288-4315**
- **York Factory First Nation 204-341-2236**

For more information on the Keeyask Project, visit [Keeyask.com](http://Keeyask.com).

For information about employment opportunities with Manitoba Hydro, visit [hydro.mb.ca/careers](http://hydro.mb.ca/careers).

## About KEEYASK

The Keeyask Project is a 695 megawatt (MW) hydroelectric generating station, being developed in partnership between Manitoba Hydro and four Manitoba First Nations – Tataskweyak Cree Nation, War Lake First Nation, York Factory First Nation, and Fox Lake Cree Nation. Working together, the partners are known collectively as the Keeyask Hydropower Limited Partnership (KHLP).

Located on the lower Nelson River, approximately 725 kilometres north of Winnipeg, construction of the Keeyask Project includes:

- **A powerhouse containing seven turbine generators;**
- **A spillway stretching across the South side of Gull Rapids;**
- **Dams across Gull Rapids; and**
- **Dykes on the north and south sides of the reservoir.**

Once completed, Keeyask will provide renewable energy to fuel our province's future.

“Go for it. There are lots of opportunities here – whatever you like, you can find it here.”

**Laura Kematch**

Third Cook, Sodexo

“My crew is one of the best crews I’ve worked with. It’s like another family, and that is what makes me come to work every day. There is good, positive energy here.”

**Adam Spence**

Northern Maintenance Services

“I am amazed at how many different people and jobs come together to build a dam.”

**Robert Massan**

Wellness and Recreation Clerk, Sodexo

## To build KEEYASK
