## 1 PURPOSE

Manitoba Hydro's main priority is health and safety. We take collective pride in our commitment to ensure employees, Contractors, and visitors remain safe while travelling to and from, or while at, the Keeyask Project Site. Manitoba Hydro is committed to providing a safe and healthy work and travel environment during a pandemic through proper planning and preparedness measures for the prevention and control of exposure to pathogens including COVID-19.

## 2 PROJECT INFORMATION

The site of the Keeyask Project is located in Northern Manitoba on the side of the Nelson River, at the base of Gull Rapids, 185 km northeast of Thompson, Manitoba. The site is accessible by road from Thompson and Gillam, Manitoba.

The camp consists of 23 dorms with the addition of 8 exterior, for a total room capacity of 2,357. There is a total of 10 public washrooms in camp with multiple common areas ranging from dining room, movie theaters, wellness/gym area, entertainment areas; pool tables, TV rooms, computer lab and lounge.

Medical services such as EMS first responders and Nurse Practitioner are located on site with the two nearest health care facilities located in Gillam and Thompson, Manitoba.

## 3 DOCUMENTS

The Keeyask Project has developed a comprehensive Pandemic Plan, in response to COVID-19, which attempts to minimize the introduction of the virus at site, prevent its spread, and prevent transmission between site and the local communities.

The following documents form the Pandemic Plan, which outline various actions implemented to date at the Keeyask site to minimize the introduction of the virus at site and prevent its spread.
